

# Quick Install Basic™ Gate

NO TOOLS REQUIRED

- 1 Quick installation
- 2 Up to 50% more precise ¼" width adjustments
- 3 Reinforced hinge points and high impact locking arms for greater strength

## EASY TO MOVE FROM ROOM TO ROOM

## Installation & Operating Instructions

1. Stand the gate on the floor with the locking arm on the side facing you. The numbers on the arm should be upright. Lift up the locking arm and slide the locking pin into the groove that matches the size of your opening. Grasp both panels from the top outside corners and stretch the gate until both sides fit the opening.
2. Always mount flush to floor. Push down on the locking arm until both arm bars are flat against each other. Make sure that the lower arm is seated inside the metal U bracket. If the gate is still loose, move the locking pin to the next groove until the gate fits securely in the opening. DO NOT FORCE LOCKING ARM DOWN. Note: Locking arm may have a slight outward bow.
3. To open or remove, simply pull up the locking arm.

### WARNING:

- To prevent serious injury or death, securely install gate or enclosure and use according to manufacturer's instructions.
  - Never use with a child able to climb over or dislodge the gate or enclosure.
  - This product will not necessarily prevent all accidents.
  - Never leave child unattended.
  - Use only with the locking mechanism securely engaged.
  - Intended for use with children from 6 months through 24 months
  - To prevent falls, never use at top of stairs. Install with locking mechanism on side away from child.
- To Clean:** Use mild soap and wipe with a damp cloth.
